ACP70EUZ | Targus USB 3.0 Dual Video Docking Station

The Targus USB 3.0 Dual Video Docking Station provides a universal expansion solution for Windows based laptops through its single USB connection.

Monitors, printers, network, keyboard, mouse… all instantly accessible through the Plug and Play capabilities of the universal docking station.

The design of the docking station allows you to rest your laptop on it to provide additional cooling and a more comfortable typing position.

"Always On" USB ports enable you to continuously provide power to any device you wish to power even when the laptop isn't connected.

The single USB cable connection will occupy only 1 of your laptop's USB ports, meaning this docking station can be used with different brand laptops, making it a popular choice for IT managers.

Dual screen support through a HDMI and a DVI-I port.

A HDMI to DVI & a DVI to VGA adapters are supplied for added flexibility

Functionality: USB 3.0 single connection to numerous peripherals including monitors, network, audio and other USB devices

High performance: supports monitor resolution up to 2048 x 1152

Gigabit Ethernet

USB 3.0 + USB 2.0 ports

Comfortable and ergonomic: designed for comfort and cooling while raising your notebook platform
